

WHY CHOOSE CORPORATE LADDERS?

At Corporate Ladders, your success is our success. For over 30 years, Corporate Ladders has worked with companies of every size in many industries to help business owners and leaders grow revenues to the next level.

Our approach goes beyond traditional consulting. As business coaches, we provide support, guidance, and ongoing metrics for continued success. Having a coach helps you stay on track for success and keeps you focused on managing critical top priority projects. Working with you, we provide ideas and strategies on leadership and direction to implement and achieve your near and long-term objectives.

Working With Corporate Ladders, You'll Receive:

- The benefit of experienced professionals who have successfully built businesses
- Customized solutions and plans for meeting your business goals
- Coaches who aren't afraid to "get their hands dirty" with you in your business
- A coach who is flexible, easy to work with, and holds you accountable for your commitments

Attention Attorneys and Professional Service Providers:

Corporate Ladders has worked extensively with attorneys, CPAs, and other professional service providers to grow their practice and top-line revenues. We have trained, motivated, and coached thousands of professionals in all areas of business development, from building value to creating superstars. Our coaching helps navigate the complexities of business development to acquire new clients. We work "in the trenches" at the deal level to help devise strategies to close new originations.

Helping Your Business Get to the Top!

Winning Strategies Grow Revenues.

Whether you need support to grow your business, improve profitability, or develop leadership and talent, Corporate Ladders delivers the expertise you need to get results. Using our extensive coaching experience, we will work with you to build and maintain an effective organization that provides top-line revenue results. Good coaching reduces wasted time and effort while lessening your workload to quickly get your business moving in the right direction. Our business review process scours your organization and examines products, markets, and operating strategies to uncover revenue and profit opportunities.

Business Energizing and Coaching

Many businesses find themselves doing “OK” but not delivering the kind of revenues and profits their leadership expects. They know their business can do more – but how? Well, significant profits are attained when your business is operating at peak performance. But it is often difficult to identify the areas that need improvement or those that can be leveraged for more profits. Corporate Ladders helps clients energize their businesses to take them to the next level of revenue growth and profitability.

Corporate Ladders works with our clients to take a “deep-dive” into their business in areas such as:

- ✓ **Business Financials:** to see how you are doing with cash flow, paying bills, and making money
- ✓ **Business Plan:** to evaluate your products and services to see how they fit your targeted customers
- ✓ **Business Operation:** to understand how you work with clients, deliver services, and provide value

Once completed, we will work with you to develop a plan for success and coach you to build your business to the next level and beyond.

Most of our clients find our coaching the most valuable part of this process.

OUR PROVEN APPROACH

Who Needs A Business Coach?

Maybe you if...

- You're concerned about how the economy has impacted your business
- You're working crazy hours just trying to keep your head above water
- You aren't making enough money to justify all the time you are working
- You're thinking that running your business isn't as fun as it used to be
- You're spending money on marketing and advertising with little growth to show for it
- You're having trouble finding new business and building up your client book

Business Coaching

Corporate Ladders' Business Coaching works with you to achieve business success by providing guidance, assistance, critical thought, support, and evaluation along the way. We provide the business development expertise and coaching you need to move your business to the next level.

Our coaching provides a fresh perspective, new approaches, and ways to change tactics, which enables your company to get back on track and increase top-line revenues.

All great athletes have coaches to assure they perform at an optimal level – why not you?

At Corporate Ladders, your success is our success!

We bring over 35 years experience working with professionals to grow revenues to the next level.
